SPEEDSTER

July 27, 2014  **Cranbury Park, Norwalk, CT**

The **356 Speedster** was introduced to America by Porsche's U.S. importer Max Hoffman on September 17, 1954. The occasion was a Concours held in connection with the 7th International Sports Car Grand Prix at Watkins Glen, where Hoffman's signal red Speedster would win its class.

The **41st Annual Connecticut Valley Region (CVR) of the Porsche Club of America Concours d'Elegance** will feature a special historic display of Porsche Speedsters including numerous 356 Speedsters and examples of the 911, 964, 993 and 997 Speedsters.

We cordially invite all Speedsters in the Northeast to participate in our display. All Speedsters who pre-register will receive a commemorative gift from CVR. All Porsche owners are also invited to participate in our People's Choice Concours.

Please contact CVR's Concours team or check out the CVR website for more details on how to participate.

The first U.S. Speedster # 80002
